TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

December 16, 2005

Mr. Mike Boudloche Trustee 555 North Carancahua Suite 600 Corpus Christi, Texas 78478

Reissue of Approval of Encycle's Corrective Measures Study and Re: Corrective Measures Implementation Workplan Dated May 27, 2005 TCEQ SWR No. 30003 TCEO Hazardous Waste Permit No. HW-50221 EPA ID No. TXD008117186 Civil Action No. H-99-1136, Enf. ID No. 1017 Agreed Consent Decree Entered October 7, 1999

Dear Mr. Boudloche:

The Texas Commission on Environmental Quality (TCEQ) reviewed Encycle's Corrective Measures Study and Corrective Measures Implementation Workplan dated May 27, 2005. The TCEQ approved the conceptual Corrective Measures Implementation Plan for Encycle with a letter dated December 5, 2005, however, that letter inadvertently left a Solid Waste Management Unit (SWMU) off the summary list. This letter is being reissued to include that SWMU. Encycle is required to submit a Corrective Measures Implementation Report verifying the remediation is completed. The following is a summary of the approved remedy:

Solid Waste Management Unit (SWMU)	Remedy
01 Landfill	Propose excavation of soils and repair Landfill cap
East and West Lagoons	Contaminated waste and soils have been excavated
Waste Pile	Propose excavate soils

P.O. Box 13087 Austin, Texas 78711-3087 • 512/239-1000 • Internet address; www.tceq.state.tx.us Mr. Boudloche

Mr. Boudloche Page 3 December 16, 2005

Please be aware that it is the continuing obligation of persons associated with a site to ensure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If the actual closure fails to comply with these requirements, the burden remains upon Encycle to take any necessary and authorized action to correct such conditions. A TCEQ field inspector may review your Final Report and conduct a closure inspection of the site.

To document compliance with the Texas Professional Geoscience Act, the Remediation Division will not review reports and documents received on or after October 1, 2004 that contain unsealed geoscience services or work. Reports and documents with unsealed geoscience services or work will be returned to the submitting party. For further information, see the Texas Board of Professional Geoscientists website (http://www.tbpg.state.tx.us). Please direct all questions regarding what constitutes geoscience to the Board (512/936-4400).

Questions concerning this letter should be directed to me at (512) 239-2350. When responding by mail, please submit an original and one copy of all correspondence and reports to the Corrective Action Section at Mail Code MC-127 with an additional copy submitted to the TCEQ Region 10 Office in Beaumont. The TCEQ Solid Waste Registration Number and unit description should be referenced in all submittals.

Dead frakling

Brad Wilkinson, P. G.

Project Manager

Sincerely,

Team 4, Environmental Cleanup Section I
